

Brief

We need to create shade descriptions for 1500 wall colour shades available on Nerolac. The shade descriptions need to entice the customers to aspire to paint/repaint their walls. Each description should be about 50-80 words.

Please download Nerolac Colour My Space app to understand the product better.

Shade descriptions format:

Start with a context-setting aspirational/imaginative sentence.

Describe the colour – could use colour properties, psychology or moods.

Suggest which corner, wall, room will it be best suited for.

BURNT SIENNA - Red - Shade 2210

A colour that resembles the open sky during twilight on a road trip. It is silent, yet dramatic and dense, while being commanding. It will fill up a space with confidence and power. Burnt Sienna engulfs you in its regality while you fascinate upon its complexities and aristocracy. The charisma of this shade is unmatched. Drench your walls with this hue and experience luxury in another realm. This mysterious shade works best when paired with shades of beige, yellow and soft teal.

CACTUS PETE - Green - Shade 437

Perfectly balanced between blue and green, bold and muted. A mid-tone that offers many design possibilities. In this light shade, a smidgeon of pistachio green shows through. Bring the outdoors into your kitchen by adding this nature-inspired green. It's also a terrific colour for a bright and cheerful bathroom or laundry room. To soften the impact of this vivid colour, pair it with off-white painted trim.

MISSION BEIGE - Beige - Shade 679

Subtlety is an art. It should never go unseen. Allow this shade to subtly embellish your home with the best parts of your personality. Its bright hue adds more light and space, and allows for you to stand out in the midst of it. It adapts and transforms your space to fit your vision and take it even further. Bathe every room in your home with the subtle wonder of Mission Beige. Pairs beautifully with yellow and black.
