

Black Shirts for the win: They say – “People will stop wearing black when they make a darker colour”

Do we all agree that you won't find a single man who does not own a black shirt? Yes, that is true, because black clothing has undeniable power. History holds proof that black is fashion's favourite colour. There is something about the colour black that everyone is drawn to, in particular. It is the one shade that can complete your look without the help of any other colour.

Shirts these days play a crucial role in the smart formal space for men. A men's black shirt is a timeless piece of clothing in your wardrobe that would look good just as is or if layered up with a jacket or suited up. Whether you buy a formal black shirt or a casual black shirt, you will always look fashionable. That is indeed the beauty of a plain black shirt. In addition to a plain black shirt, we must touch upon the fact that a cotton black shirt does the trick too. The potential of the cotton black shirt is crystal clear where it brings a change in monotonous styling and adds an elite look that is irreplaceable. Cotton absorbs moisture and makes the fabric breathable. Therefore, a black cotton shirt would be perfect for a classic outing in the summer season too.

Even though we believe that a black shirt makes an impression per se, here are some styling tips you could consider while wearing your classic black shirt.

Tips to style your black shirt:-

A black formal shirt worn with dark denim is irresistible. Whether tucked or untucked, dark denim goes extremely well with a black shirt.

The all black rule: black shirts go beautifully with other pieces of clothing in the same colour. Wear a formal black shirt under a black blazer or a tailored trench; wear it over a pair of sleek black denims. Of course, black shoes are always a must to complete the outfit for the perfect sense of dark elegance.

A business-casual and a business-professional look can be achieved with a black shirt. For an adorable black shirt combination, add colour and contrast with a necktie and pocket square to prevent the outfit from looking too monochromatic.

Simply swirl the norm of wearing patterned shirts with plain pants. Wear checked jeans or pants with a plain black casual shirt. This is one such prominent combination that has been breaking the fashion ramps today.

Be quirky by pairing a formal black shirt or a casual black shirt with rugged jeans. Opt for a patterned men's black shirt or a nicely accessorized one with buttons and pockets. Men o out there can surely opt for this new trend when they want all eyes on them.

Men's black shirts automatically channel glitz, and you can too in a less flashy way. The key? A classic sweater vest will work for a black shirt. It still works under your favourite moto jacket on the weekend, but it's also a vibe you can sport to the office on Tuesday.

Some tips that you should NOT follow with your black shirt:-

DO NOT pair a black dress shirt with other darker tones, i.e., red, navy, dark green, brown, etc... Black works well as a contrast. As such, the worst contrast is with other darker tones.

DO NOT pair a black dress shirt with something white. You'll get attention for the wrong reasons. While a white shirt works well with black slacks, a tie, or suspenders, the opposite isn't true – so just don't!

Some noteworthy people have said the following:-

1. “You can wear black at any time. You can wear it at any age. You may wear it for almost any occasion.” — Christian Dior
2. “Women who wear black live colourful lives.” — Neiman Marcus
3. “Black is modest and arrogant at the same time. Black is lazy and easy — but mysterious. But above all black says this: I don't bother you — don't bother me.” — Yohji Yamamoto
4. “I love black because it affirms, designs and styles. A woman in a black dress is a pencil stroke.” — Yves Saint Laurent
5. “I work in three shades of black.” — Rei Kawakubo
